LTT Activities C-2

EVALUATION RESULTS

According to the evaluation survey results the students were satisfied by being involved in a variety of activities related to project priorities about Creative Thinkers such as caring for the environment, volunteering, walking a lot in nature, enjoying face to face communication, learning to learn competence by working together in groups, exchanging knowledge and improving their attitudes towards learning.

They have been aware of the cultural heritage of the city and the surrounding areas.

They have developed excellent oral and written communication skills as they had to interact with others from different background and engage in a positive way with the host families. They also had contact with the host country's language. They even learned to read the Greek alphabet!!

Moreover, they enjoyed the trips and the guided tours which were really educational, well organized and interesting. They were amazed by the hospitality of the families and the Greek people in general!

Being aware of the cultural diversity in Europe they believe that by breaking barriers, leaving aside prejudices and stereotypes about different cultures and lifestyles their ability to make real life relations can be improved thus enabling them to take small steps for a better world!!
